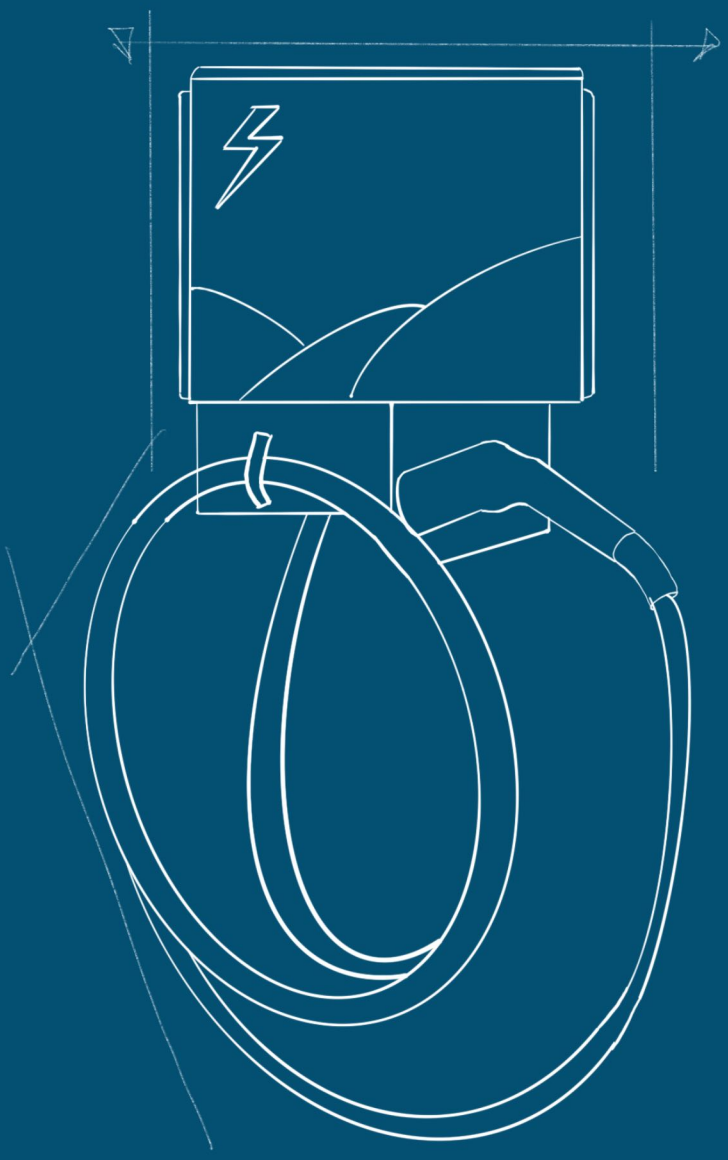
Sales Outsource Solutions

Electric Vehicle Solutions



Sales Outsource Solutions

1. Mobile Printing & Labeling

Panduit creates leading-edge labeling solutions for electrical and network environments, from the data center to the telecom room, from the job site to the plant floor.

2. Grounding Connectors

Reliable grid grounding systems that meets the latest IEEE standards. Lowers installation time to help with the accelerated development schedules.

3. Power Terminals

Designed to meet all applicable standards and can be crimped with a wide variety of competitors' tools and still maintain UL listing.

4. Cable Management

Reduce installation time and improve the operating life of wire and cables in harsh environments.

5. Braided Bonding Straps

Tin-plated to inhibit corrosive effects and improve terminationquality of dissimilar metals.

6. Fence Clamps

Designed to ground copper conductor parallel or at a right angle to a rod, tube, or pipe.

7. Service Post

Designed for grounding one or two copper code conductor to steel structures, busbars, or transformers or for tapping from busbar with hex nut and washer.

8. Blackfin installation Tools

Battery Powered Crimp Tool with Bluetooth™ technology, crimps easily with a rotating flip-top crimp head since adapters can change out quickly.

9. Mechanical Lugs

The plated steel or aluminum set screw provides a durable electrical contract between conductor and connector.

1. Data Access Ports

The DAP provides a safe and secure way to maintain and monitor performance of Programmable Logic Controllers, Variable Frequency Drives (VFDs), and industrial networks.

1. Voltage Markers

Permanent identification solutions to deliver improved productivity and workplace safety.
